## Additional education:

March – June 2015 «[Learndroid](#)». E-leigon & Google.

## Honors & Awards:

[2nd place on the Kyiv Smart City Hackathon](#). September 2015 with project «ARBUZ»:

- Google Maps v2 for markers and directions;
- Parse.com as BaaS;
- EventBus for thread communication.

## Language:

Ukrainian, Russian – Native, English – Intermediate.

## About me:

I like to read articles and books about design patterns («Design Patterns» by Gang of Four or «Game Programming Patterns» by Bob Nystrom). Also I read books about Android programming: «Hello, Android» by Ed Burnette, «The Big Nerd Ranch Guide» by Brian Hardy and Bill Phillips.

I tried myself in game development translating some Box2d tutorials from [Emanuele Feronato](#)'s blog from Action Script to Java and finished tutorials from «OpenGL ES 2 for Android» by Kevin Brothaler. Also sometimes I develop extensions for Google Chrome.
