2016. Cigasharer. Super simple app for measuring cigarette to share it with friends (https://play.google.com/store/apps/details?id=io.github.tonyshkurenko.letssmoke).

HONORS & AWARDS

June 2016. Finalist of the AngelHack Lviv 2016 with project Sunday (https://play.google.com/store/apps/details?id=io.github.tonyshkurenko.sunday).

May 2016. 3rd place on the CactusHack 2016 with project LookAround.

September 2015. 2nd place on the Kyiv Smart City Hackathon with project ARBUZ.

ADDITIONAL INFORMATION

I've made a couple of Twitter bots with Python (https://github.com/tonyshkurenko/Bots).

I write tech articles in my medium blog (https://medium.com/@tonyshkurenko/).

I like to visit tech conferences about mobile and game development. I'm passionate about clean architecture, flexible solutions and brilliant performance.

I like StackOverflow (http://stackoverflow.com/users/4142087/anton-shkurenko).

I don't like iOS-like design on Android, continuous bug fixing and legacy code.
